HOLISTIC PROGRESS CARDS

Digital HPC User Guide for Teacher

User Guide for Teacher

Role Overview:

The Teacher fills out HPCs for their students and can generate PDFs for completed HPCs. The features available to the teachers are:

- View **school-level dashboard insights**.
- Fill HPC forms for students in editable format.
- Edit previously completed HPCs if required.
- Generate PDFs for completed HPCs.

Step by step guide:

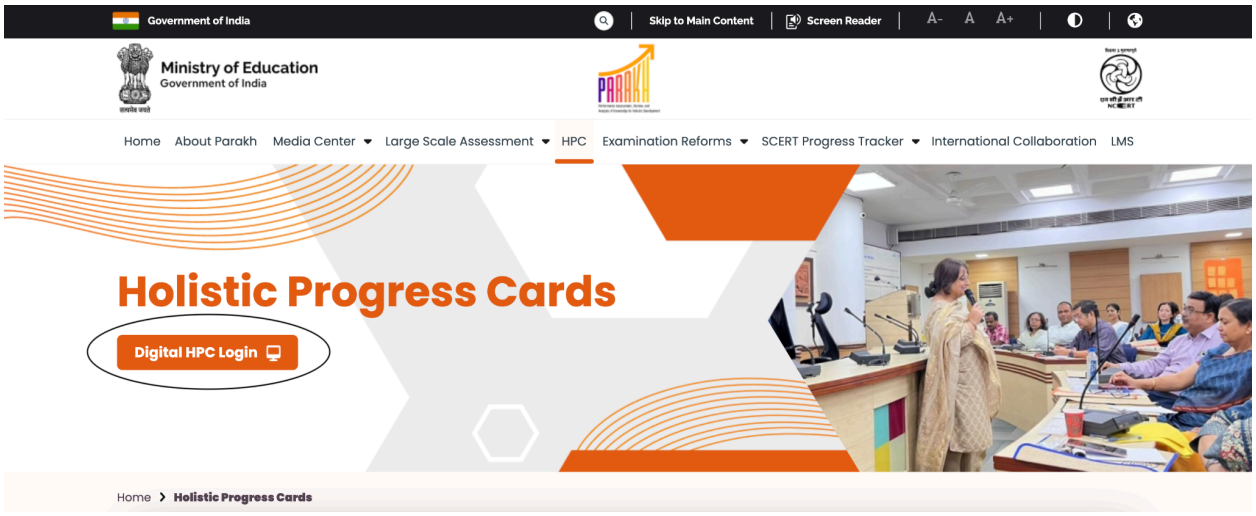

1.Login

Step 1: Access the Digital HPC Login

The Teacher navigates to the PARAKH Portal and selects the **“Digital HPC Login”** option available under the HPC tab to open the Role Selection screen for Digital HPC access.

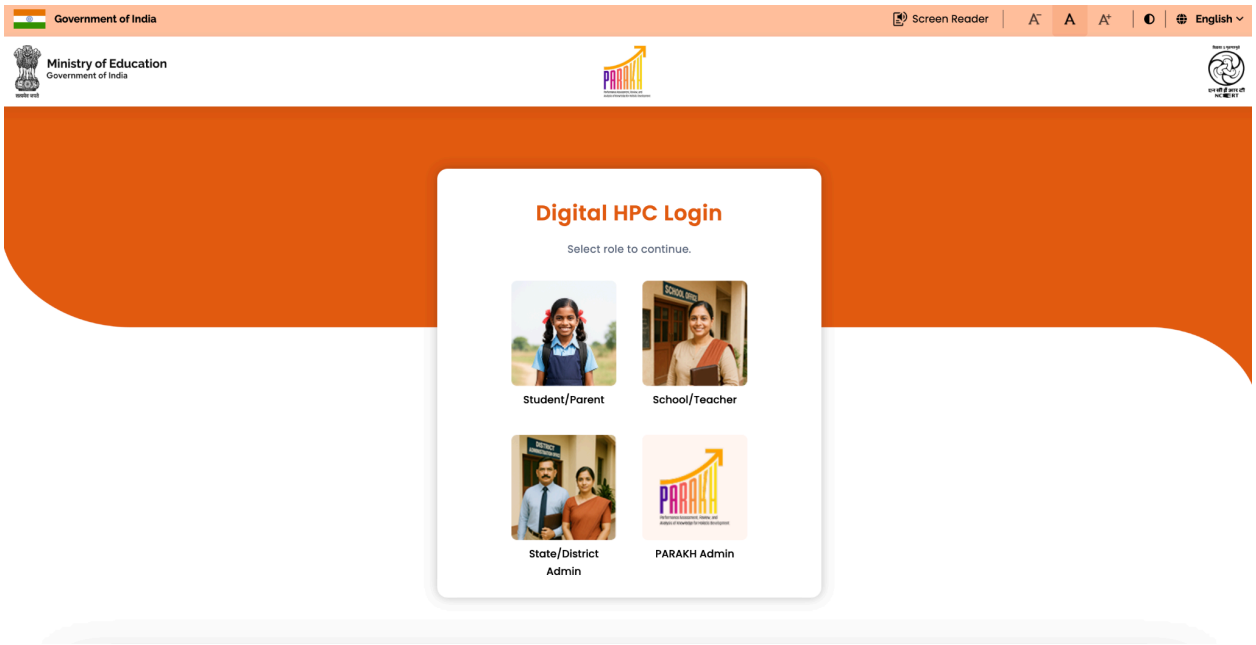

The Digital HPC Login can be accessed through the following link:

🔗 https://hpc.parakh.ncert.gov.in/en

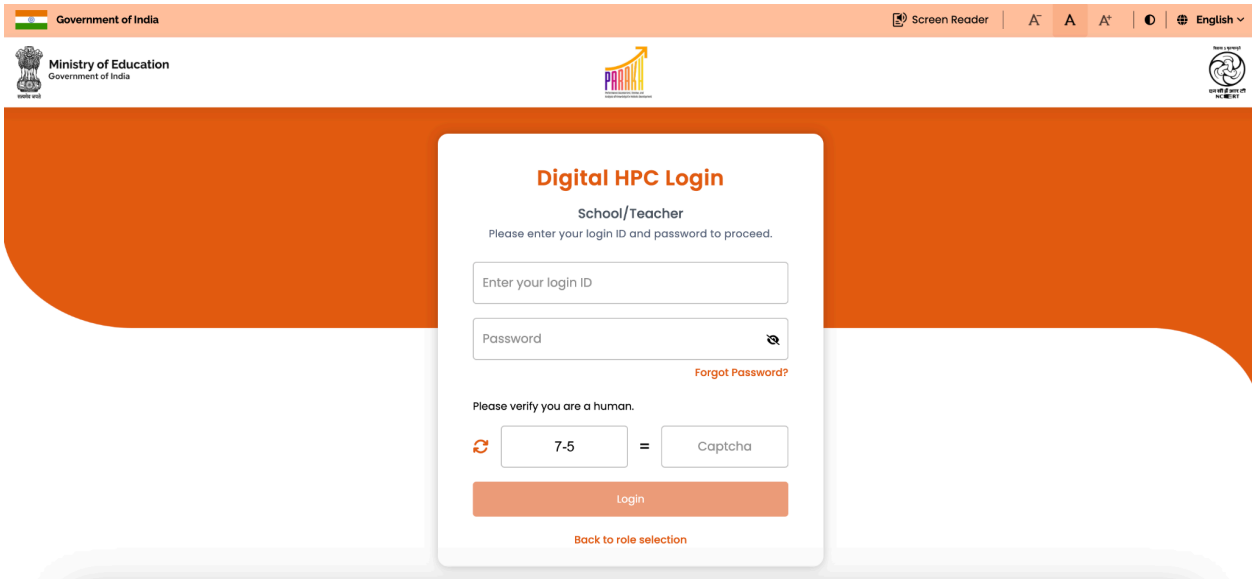

Step 2: Role Selection

The Teacher selects the **“School/Teacher”** role from the role selection page.

Step 2: Login

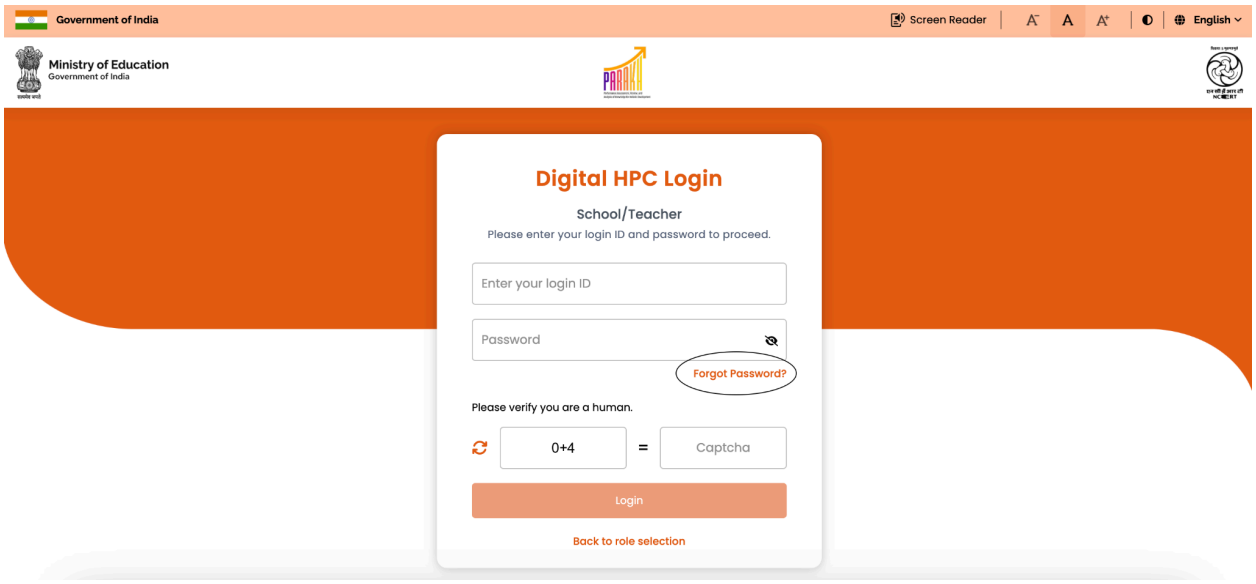

Enter **Login ID** and **Password**, and solve the **math captcha** to log in.

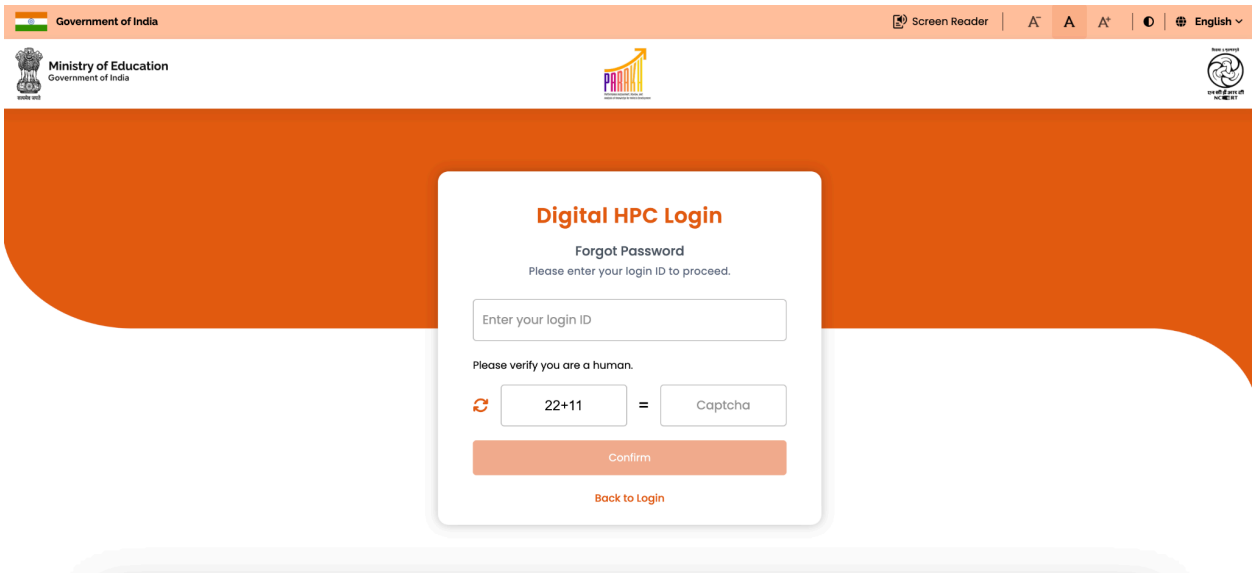

2.Forgot password

i. Initiating Password Reset

- On the login screen, the Teacher clicks the **“Forgot Password”** option.

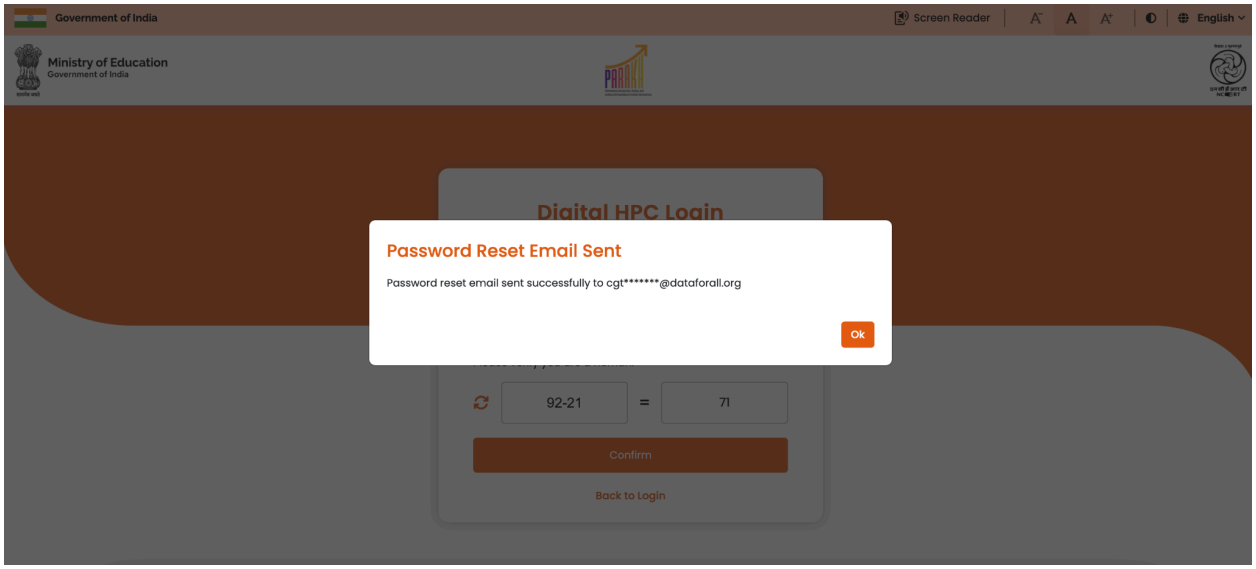

- A pop-up appears prompting the user to:
    - Enter their **Login ID**.
    - Solve a **CAPTCHA**.

- The Teacher can then:
    - Click **Confirm** to initiate the password reset process.
    - Click **Cancel** to close the pop-up and return to the login screen.

ii. Confirmation Pop-up

- After clicking **Confirm**, a pop-up confirms the request and instructs the user to **check their inbox**.
- The pop-up includes an **“Ok”** button to acknowledge.

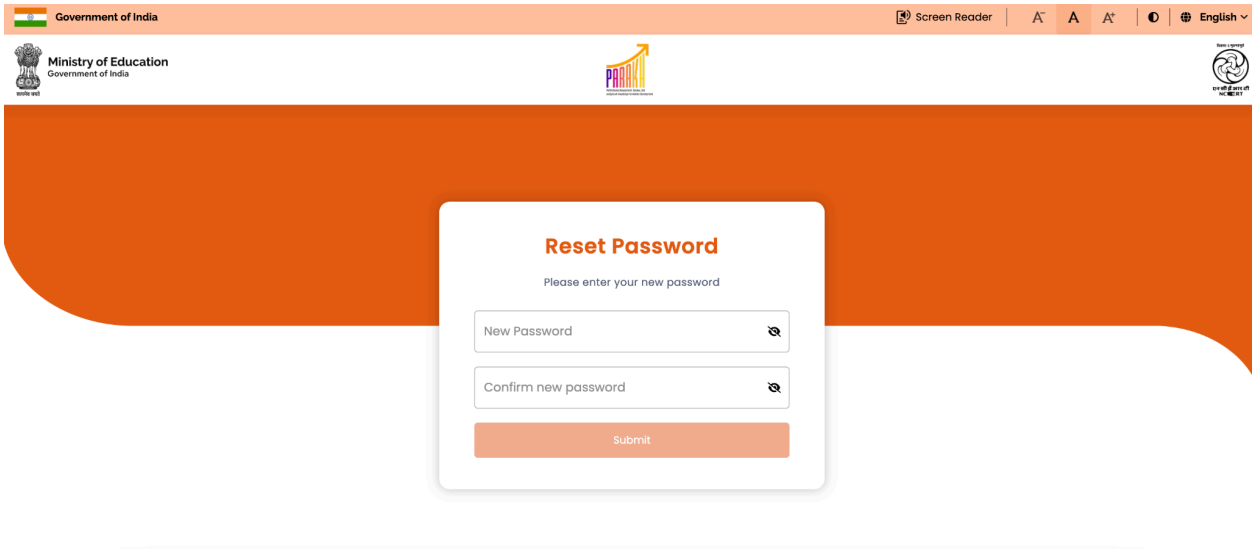

iii. Email Notification

- The system sends a **password reset email** to the registered email ID.
- The email contains a **reset button** that:
    - Opens the password reset screen when clicked.
    - Link expires in **10 minutes**.

iv. Reset Password via Email Link

- Clicking the email reset link opens a **Reset Password** screen prompting the user to enter:
    - **New Password**
    - **Confirm New Password**

v. Password Reset Success

- Upon successful submission, a confirmation message appears:
  - **“Password Reset Successful. You will now be redirected to the login page.”**
- Clicking **OK** redirects the user to the login screen.

3. Dashboard Insights

Step 1: Select the Academic Year

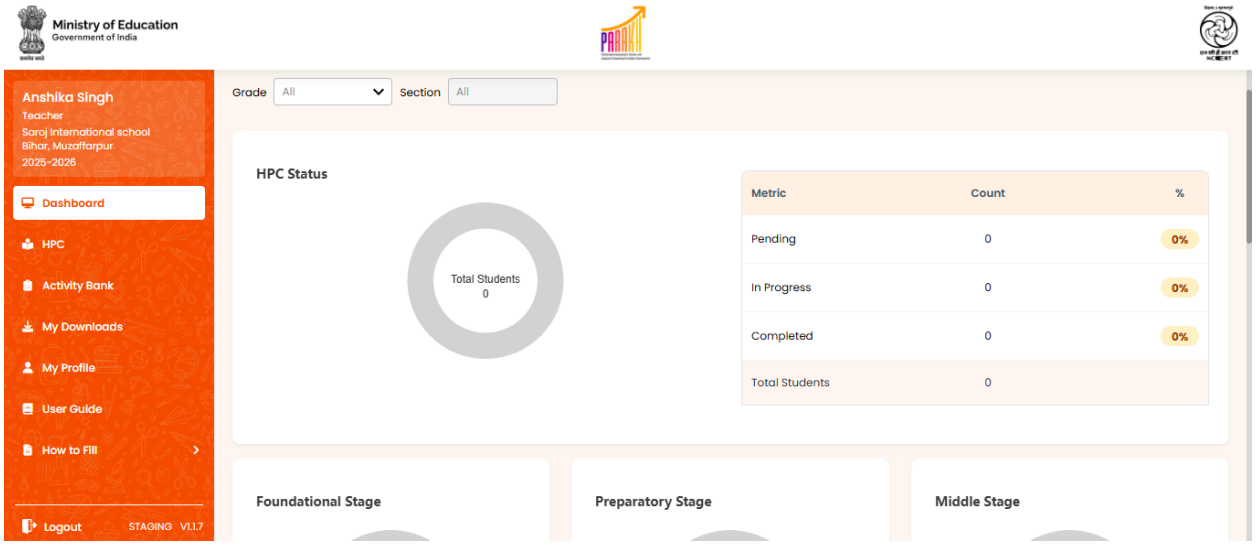

- At the top of the screen, click the **Academic Year** dropdown.
- Select the academic year for which you want to view HPC progress.
- The dashboard will refresh based on the selected year.

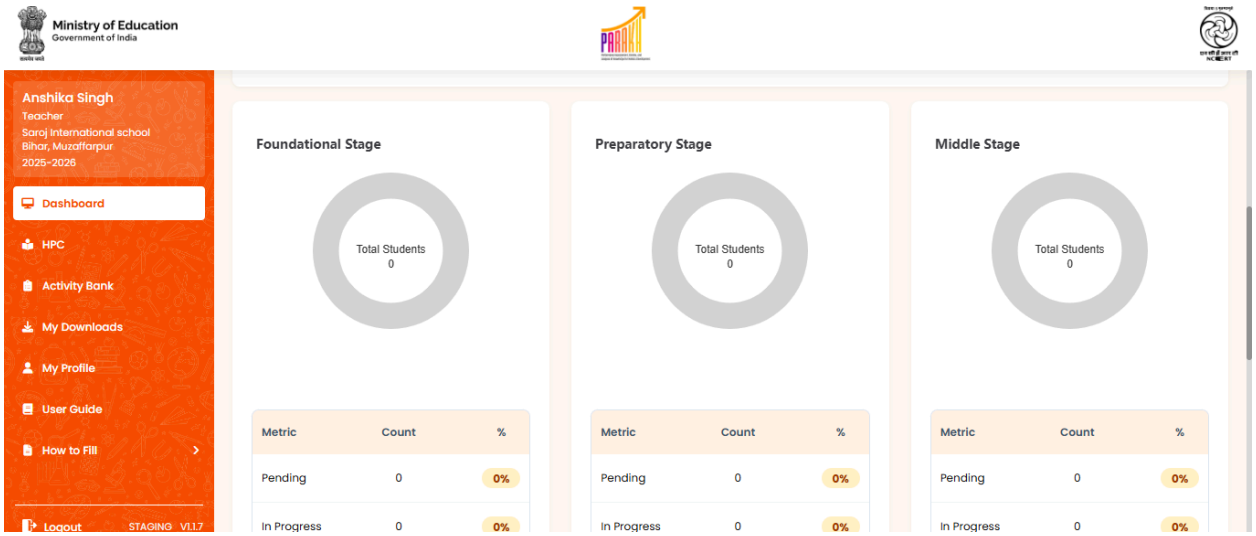

Step 2: View Overall HPC Status for Your Students

- In the **HPC Status** section, review the donut chart.
    - It shows the proportion of your students whose HPC is **Pending**, **In Progress**, or **Completed**.
- On the right, check the **HPC Status** table:
    - **Count** shows the number of students in each status.
    - **%** shows the percentage of students in each status out of the total.

Step 3: Review Stage-wise Progress

- Scroll down to see three cards: **Foundational Stage**, **Preparatory Stage**, and **Middle Stage**.
- For each stage:
    - The donut chart shows the distribution of **Pending**, **In Progress**, and **Completed** students.
    - The table below shows the **Count** and **%** of students in each status, along with **Total Students** for that stage.

4. HPC

Step 1: Select Stage

Navigate to the **Stage Selection** page, which displays four stage tiles: **Foundational**, **Preparatory**, and **Middle**. Select the relevant stage.

Step 2: View HPC List

Based on the selected stage, the HPC list will appear. The list displays:

- **APAAR ID**
- **Login ID**
- **Student Name**
- **HPC Status**
- **Grade**
- **Section** (if available)
- **Action Buttons**:
    - **Open/Edit** – “Open” appears if the HPC is **not completed**. “Edit” appears if the HPC is **marked completed**. If the teacher opens the form again after marking it complete, “Edit” changes back to “Open”.
    - **Generate PDF** – enabled **only if the HPC is completed**.

Filters

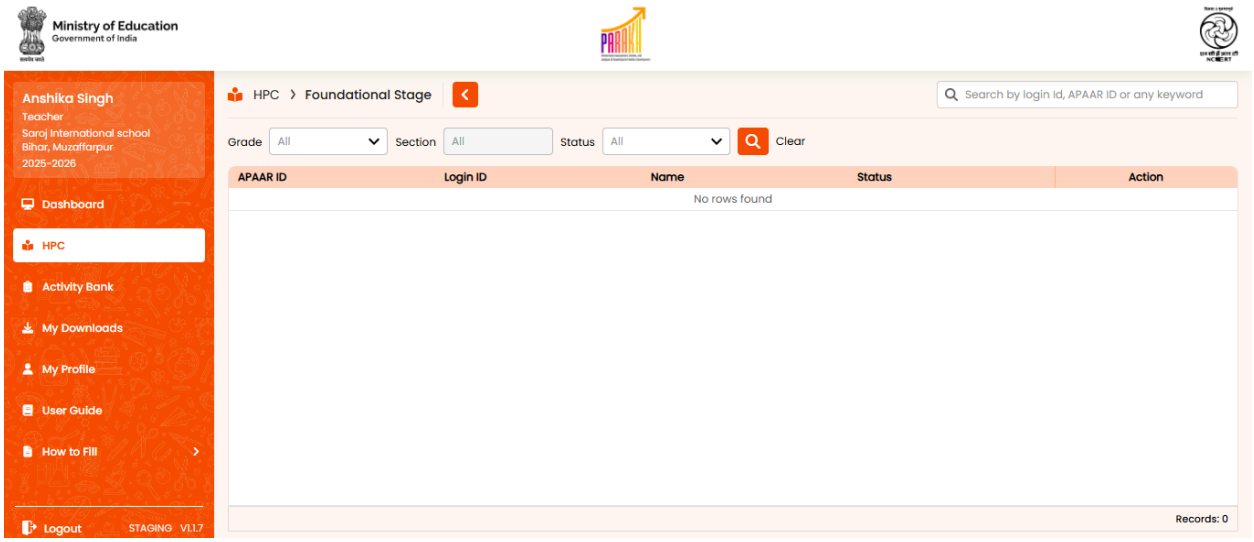

- Open any of the available dropdowns: **Status**, **Grade**, and **Section**.
- Select one option from each dropdown as needed. Filter selection is optional.
- Click **“Search”** to apply the selected filters to the HPC list.
- Click **“Clear”** to remove any applied filters and reset the selection.

Search HPC

Step 1: Click on the search bar located at the top-right of the *HPC* list screen.

Step 2: Enter the keyword you want to search for.

As you type, the list will automatically update to display the matching search results.

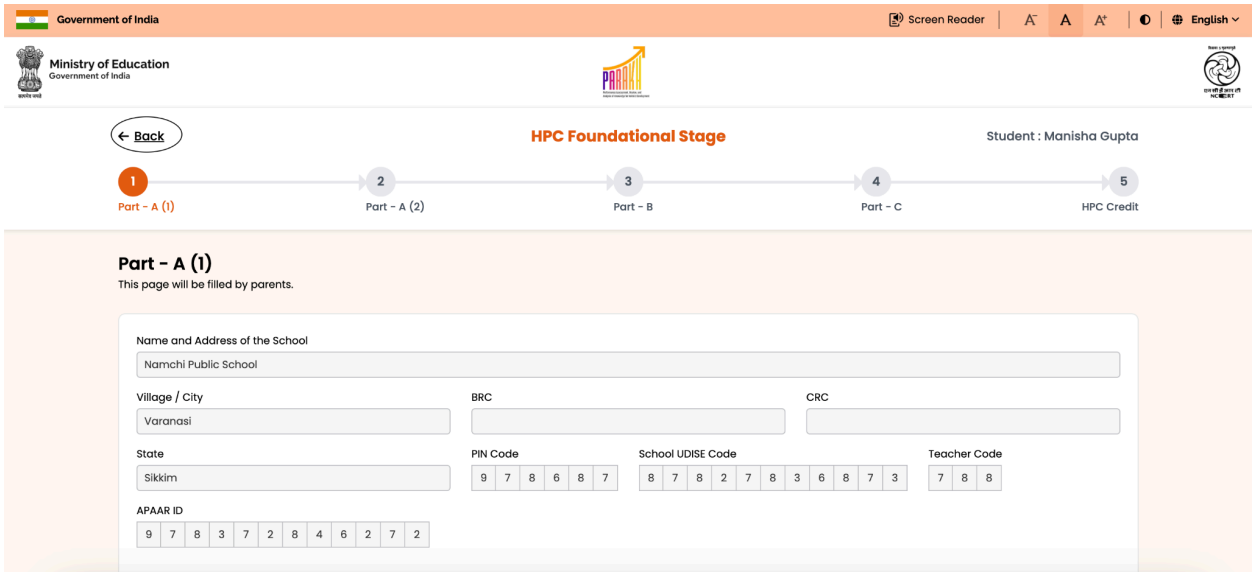

Step 3: Open/Edit HPC

1. Click **Open** to fill the HPC in **editable format**.

- The teacher has access to **all fields and sections** in the HPC form.
- If already completed, clicking **Edit** allows the teacher to make changes.
- **Fill the HPC Form**
    - Fill in the HPC form for all fields where you have the required permission or access rights.
    - You may skip fields for which you do not have permission.

2. Using the Back Button (Top of the Screen)

- If you are on **Part-A(1)** and click the **Back** button at the top, you will be redirected to the **HPC landing page**.
- If you are on **any other part** of the HPC form (e.g., Part-A(2), Part-B, etc.) and click the **Back** button at the top, you will be redirected to the **previous part** of the HPC form.

3. **Using the Back and Continue Buttons (Bottom of the Screen)**

    - Click on the **Back** button at the bottom of the screen to navigate to the **previous page** of the HPC form.
    - Click on the **Continue** button at the bottom of the screen to navigate to the **next screen** of the HPC form.

4. **Using the 'Save as Draft' Button**

    - Click on the **Save as Draft** button to save your current progress on the HPC form.
    - You can return later and continue filling the form from where you left off.

5. **Mark as Complete**

    - The Mark as Complete button is located at the bottom-right corner of the screen.
    - Clicking this button will mark the HPC as completed.
    - Once marked as complete, the HPC PDF will be generated and become available for download.

6. For More Details

Refer to the **"How to Fill HPC"** guide for more detailed instructions on each field and section of the form.

7.Generate PDF

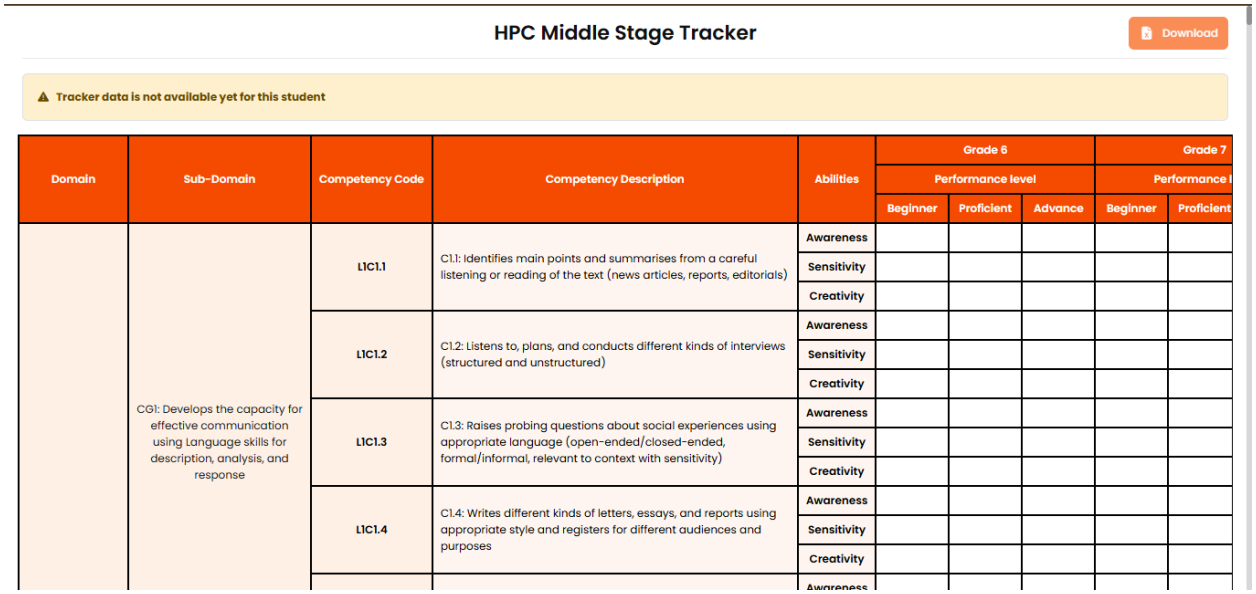

Click **Generate PDF** to create a downloadable digital copy of the HPC.

- Once generated, the PDF can be downloaded from **My Downloads** in the side menu.
- Note: Generated PDFs **expire 1 month** from the generation date.

8.Tracker

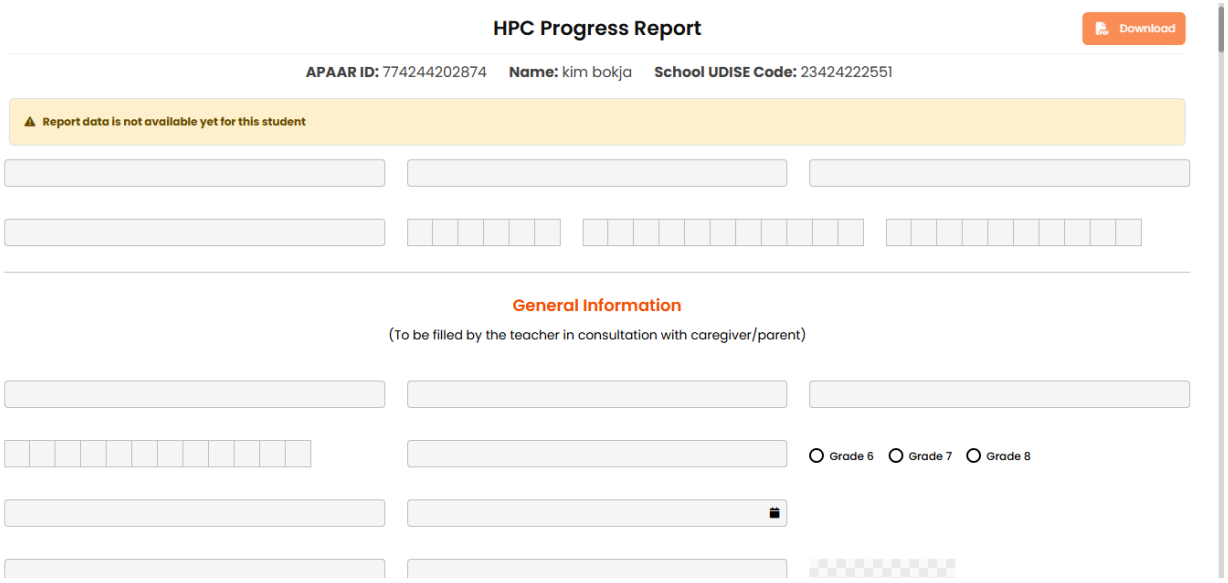

Tracker consists of

- Domain
- Sub-Domain
- Competency goals
- Competency description
- Abilities
- Grade (Performance level)

9.Report

It is the HPC progress report of an individual student belonging in a particular stage (foundational, preparatory or middle). Which can be downloaded by the teacher.

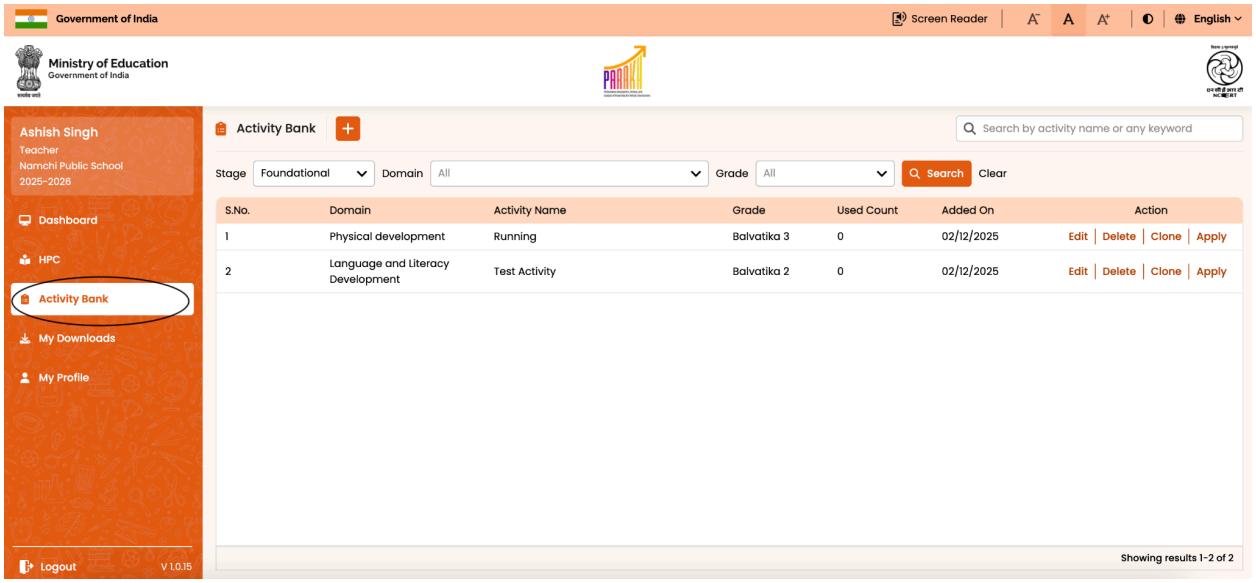

5. Activity Bank

Add Activity

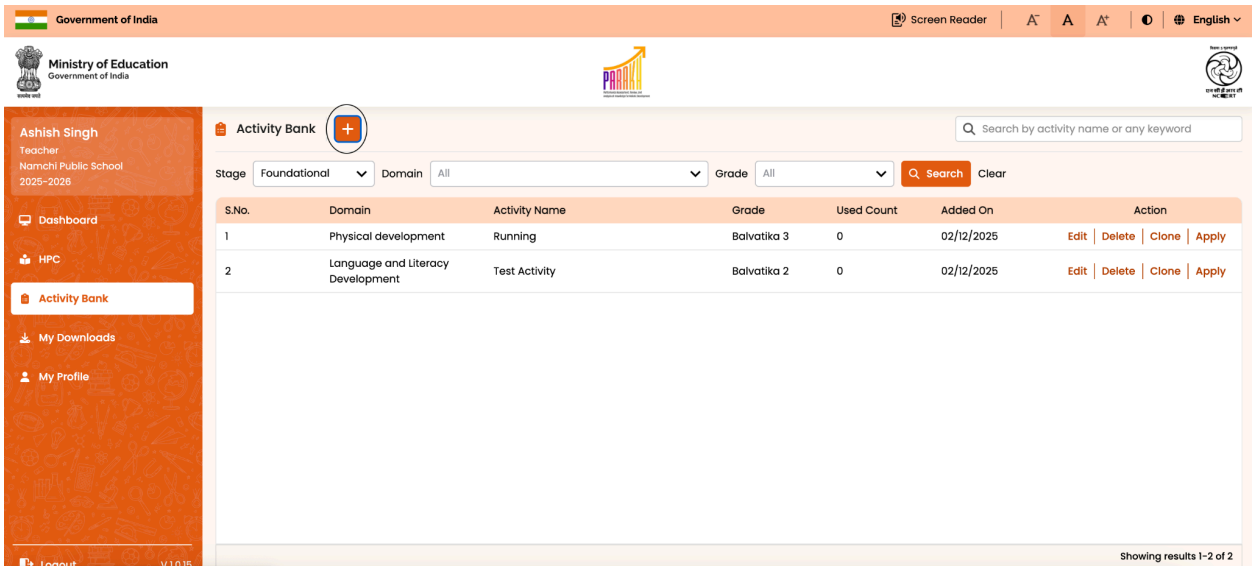

Step 1: Open Activity Bank

- From the side menu, click **“Activity Bank”** to go to the Activity Bank list screen.

Step 2: Start Adding a New Activity

- On the Activity Bank list screen, click the **“Plus”** icon.
- You will be redirected to the **Add Activity** form.

Step 3: Enter Details

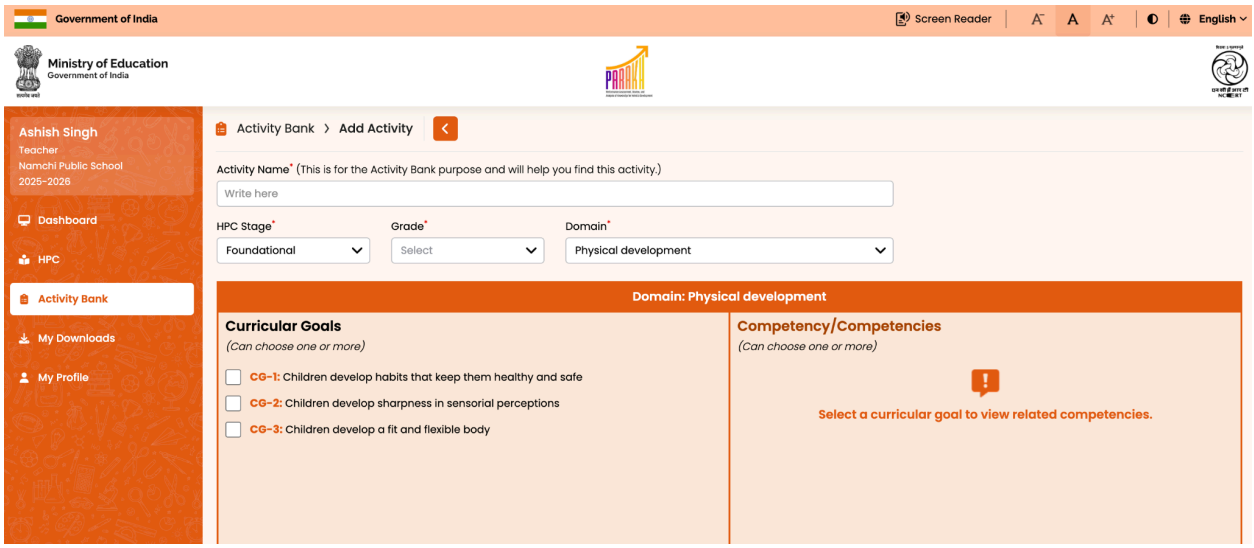

- In the **Activity Name*** field, type the name of the activity. (This is for Activity Bank reference and will help you find this activity later.)
- Select the **HPC Stage*** from the dropdown (e.g., Foundational, Preparatory, Middle).
- Select the **Grade*** for which this activity is intended.
- Select the **Domain*** (e.g., Physical development) from the dropdown.

Step 4: Select Curricular Goals

- Under **Curricular Goals**, tick the checkbox(es) for one or more relevant goals that this activity will address.

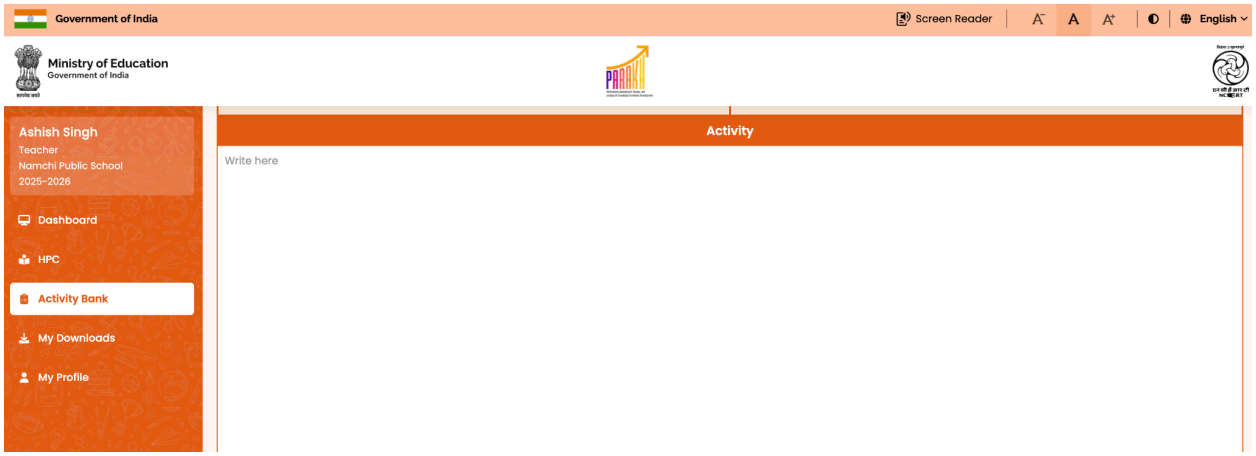

Step 5: Select Competencies

- After selecting curricular goals, the **Competency/Competencies** panel on the right will display the related competencies.
- Tick the checkbox(es) to select one or more competencies that the activity will focus on.

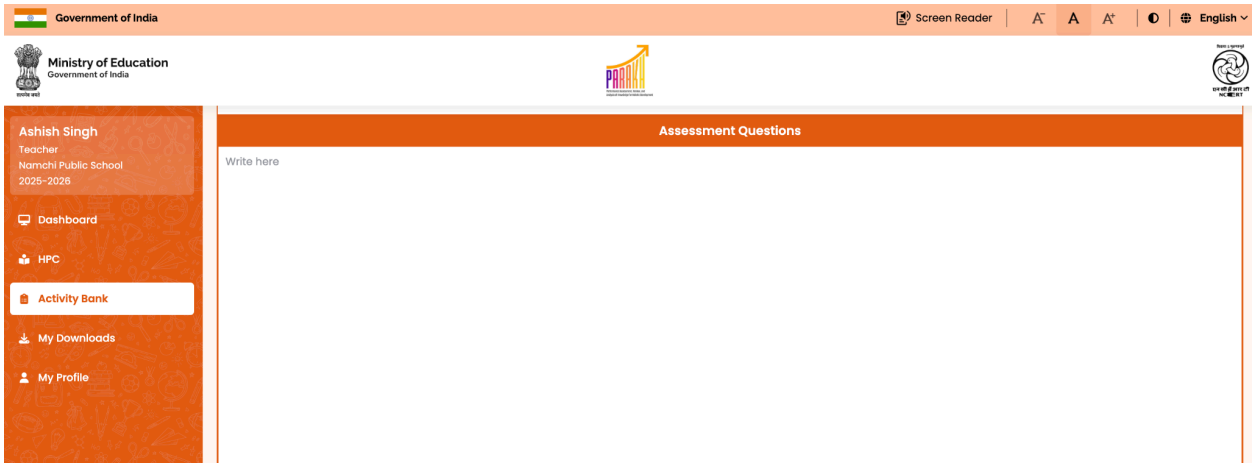

Step 6: Write the Activity

- In the **Activity** section, describe the activity in detail (instructions, steps, materials required, etc.).

Step 7: Add Assessment Questions

- In the **Assessment Questions** section, enter the questions you will use to assess students' understanding/performance for this activity.

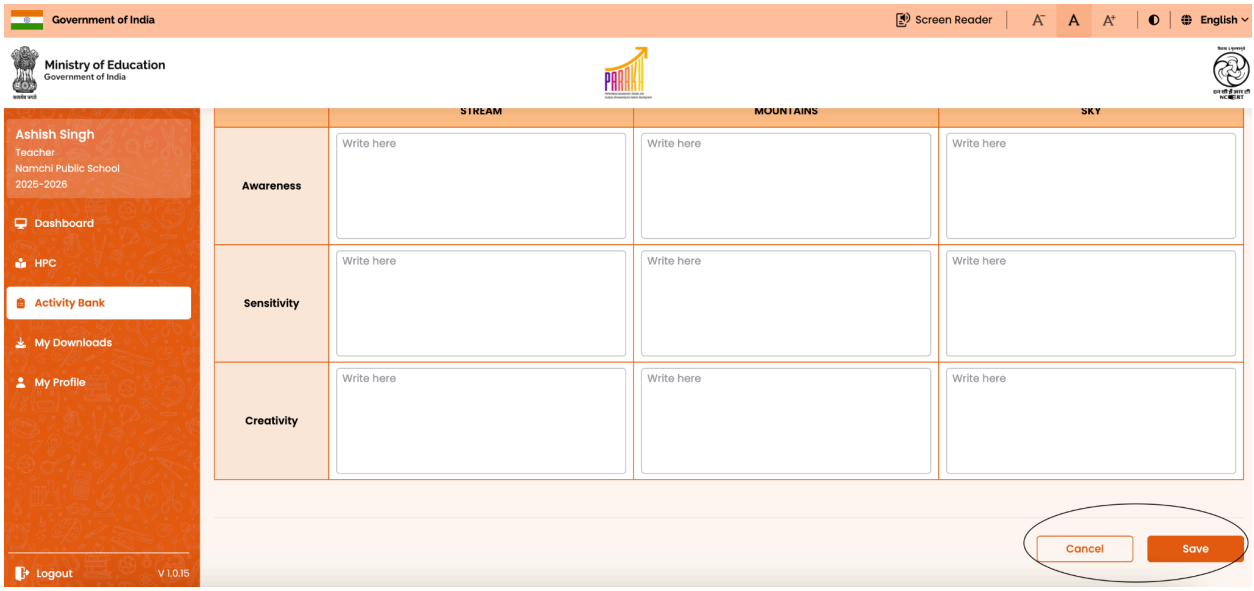

Step 8: Fill the Assessment Rubric*

- In the **Assessment Rubric** table, fill in the descriptions/criteria for each level under:
  - **Awareness** – STREAM, MOUNTAINS, SKY
  - **Sensitivity** – STREAM, MOUNTAINS, SKY
  - **Creativity** – STREAM, MOUNTAINS, SKY
- Use these cells to define what student performance looks like at each level.

Step 9: Save or Cancel

- Click **“Save”** to save the activity in the Activity Bank.
- Click **“Cancel”** if you do not want to save the changes and wish to return to the Activity Bank list.

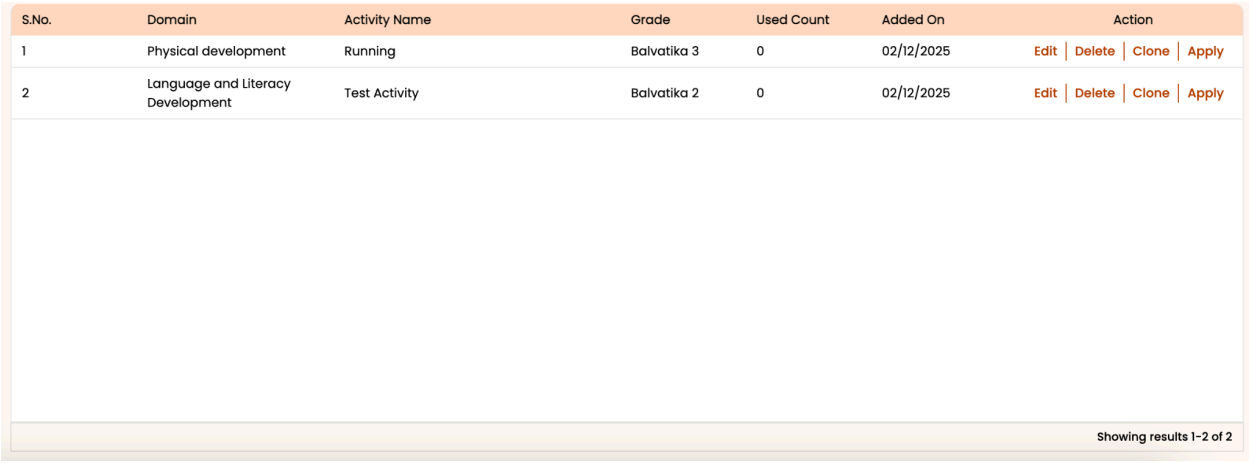

Activity Bank List

Click the “Activity Bank” option in the side menu to access the Activity Bank list screen. From here, you can search, filter, and manage your activities.

The Activity Bank list displays the following details for each activity:

- **S. No.** – The serial number of the activity in the list.
- **Domain** – The selected developmental domain associated with the activity.
- **Activity Name** – The name of the activity added by the teacher.
- **Grade** – The grade for which the activity is created.
- **Used Count** – Shows how many times the activity has been applied to students.
- **Added On** – The date when the activity was created and added to the Activity Bank.
- **Action** – Provides available actions for each activity:
    - **Edit** – Modify the activity details.
    - **Delete** – Remove the activity from the Activity Bank.
    - **Clone** – Create a copy of the activity for reuse.
    - **Apply** – Apply the activity to selected students.

S.No.	Domain	Activity Name	Grade	Used Count	Added On	Action
1	Physical development	Running	Balvatika 3	0	02/12/2025	Edit | Delete | Clone | Apply
2	Language and Literacy Development	Test Activity	Balvatika 2	0	02/12/2025	Edit | Delete | Clone | Apply

Showing results 1-2 of 2

Filter

Step 1: Open the filters above the Activity Bank list.

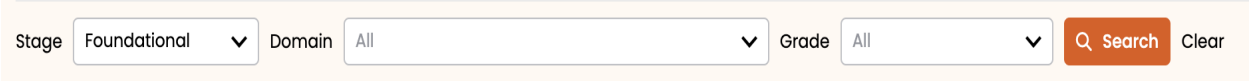

Step 2: Select the filter you would like to apply

- In the **Stage** dropdown, select a stage (single select). Only the stages assigned to you as a teacher will be shown.
- In the **Domain / Learning Standard** dropdown, select the required option from the available list.

- In the **Grade** dropdown, choose a grade. The grade options will be shown as per the selected stage.

Step 3: Click **“Search”** to apply the selected filters and view the filtered activity list.

Click **“Clear”** to remove all applied filters and reset the list.

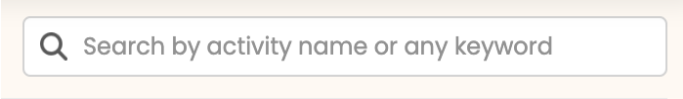

Search

Step 1: Click on the **search bar** located at the top-right of the *Activity Bank* list screen.

Step 2: Enter the keyword you want to search for.

As you type, the list will automatically update to display the matching search results.

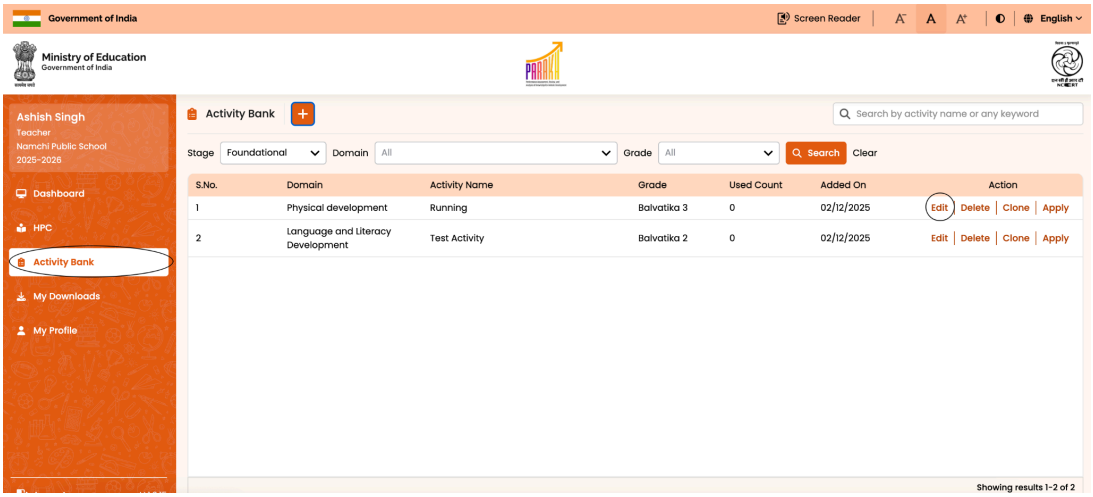

Edit Activity

Step 1:Open Activity Bank

- From the side menu, click **“Activity Bank.”**
- You will be taken to the Activity Bank list screen.

Step 2: Select the Activity to Edit

- In the activity list, locate the activity you want to update.
- Under the **Action** column, click **“Edit.”**

Step 3: Review/Edit Basic Details

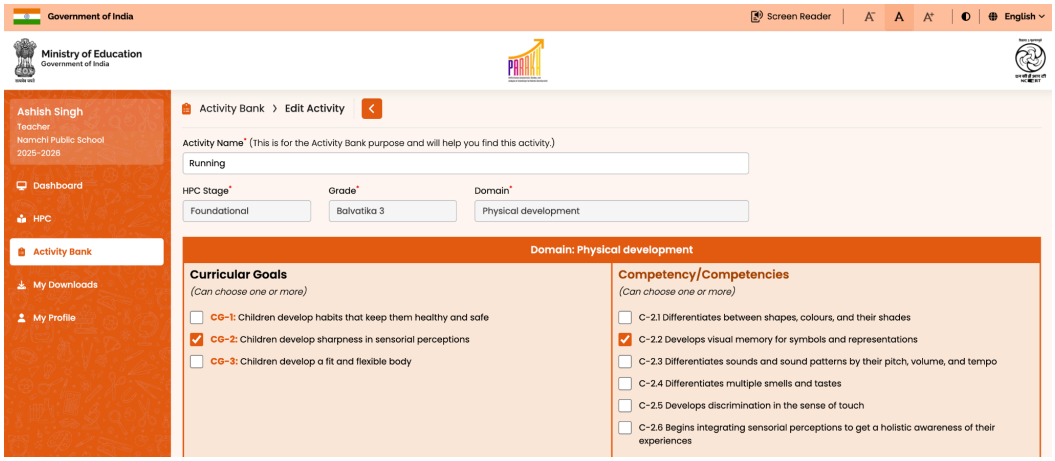

- You will be redirected to the **Edit Activity** screen.
- Update the **Activity Name** if needed.
- The fields **HPC Stage**, **Grade**, and **Domain/Learning Standard** are non-editable. These are shown for reference.

Step 4: Update Curricular Goals

- Under **Curricular Goals**, select or deselect the goals the activity should align with.
- You may choose one or more curricular goals as required.

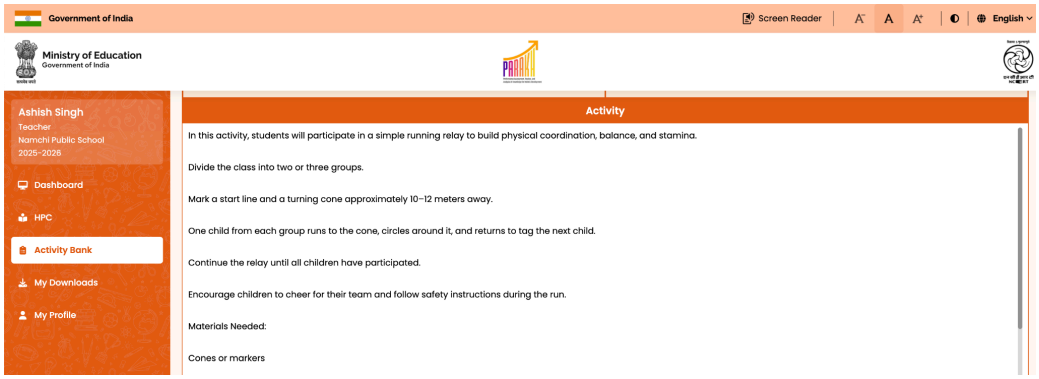

Step 5:Update Competencies

- Based on the selected curricular goals, related **Competency/Competencies** will be displayed.
- Select or deselect competencies to reflect the updated scope of the activity.

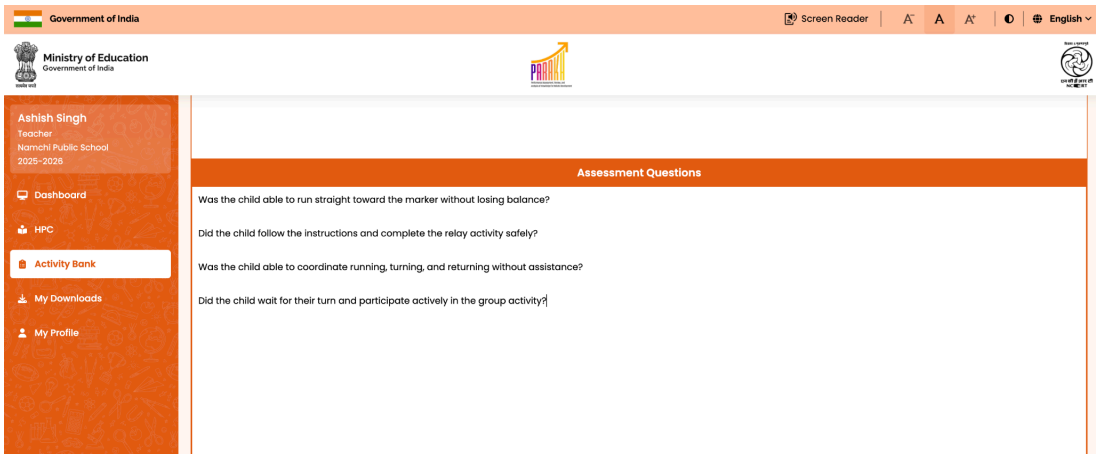

Step 6: Update Activity Details

- In the **Activity** section, modify the instructions, steps, materials, or description as needed.

Step 7: Update Assessment Questions

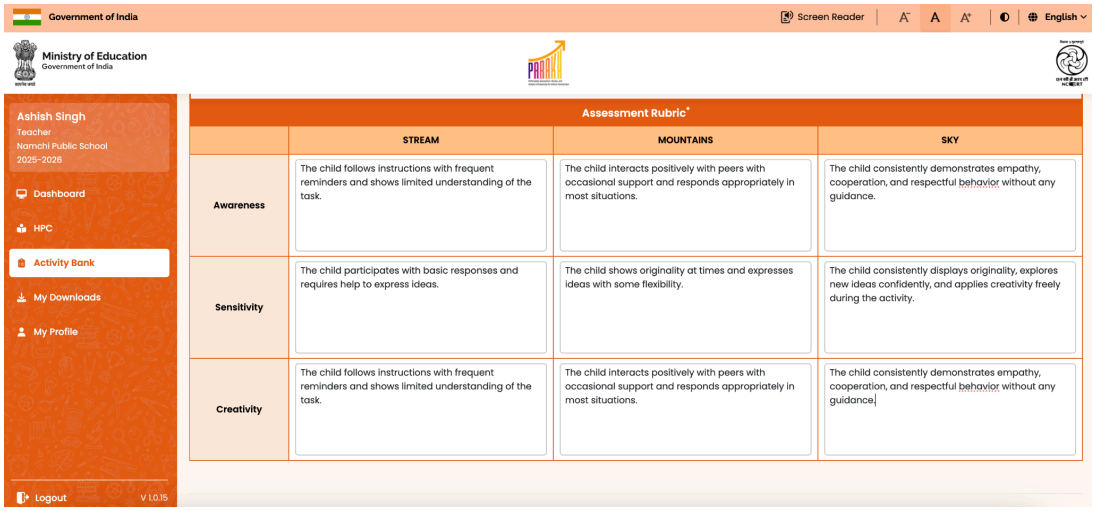

- Scroll to the **Assessment Questions** field and update or rewrite the questions used to evaluate the activity.

Step 8: Update Assessment Rubric

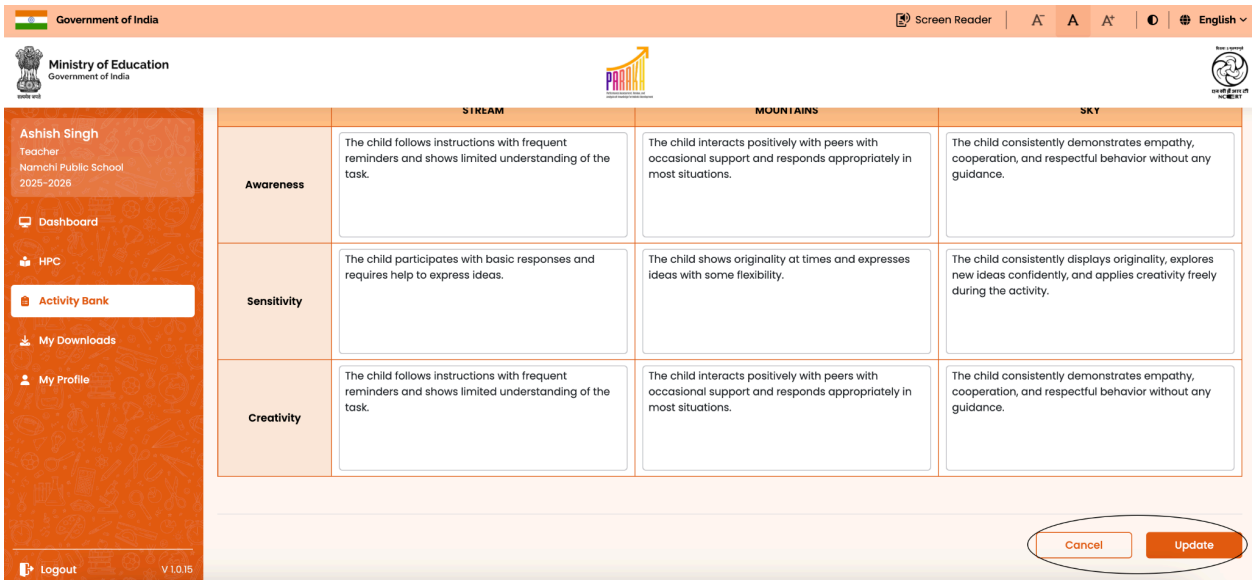

- In the **Assessment Rubric** section, edit the relevant fields under **Stream**, **Mountains**, and **Sky** for:
  - **Awareness**
  - **Sensitivity**
  - **Creativity**

- Ensure all mandatory rubric fields are filled.

Step 9: Update or Cancel

- Click **“Update”** to apply the changes.
- Click **“Cancel”** to discard the changes and return to the Activity Bank list.

Clone Activity

Step 1: Open Activity Bank List

Go to the **Activity Bank** list screen where all your activities are displayed.

Step 2: Click on “Clone”

In the **Action** column of the activity you want to duplicate, click the **“Clone”** option.

Step 3: Review Pre-filled Details

You will be redirected to the **Clone Activity** page.

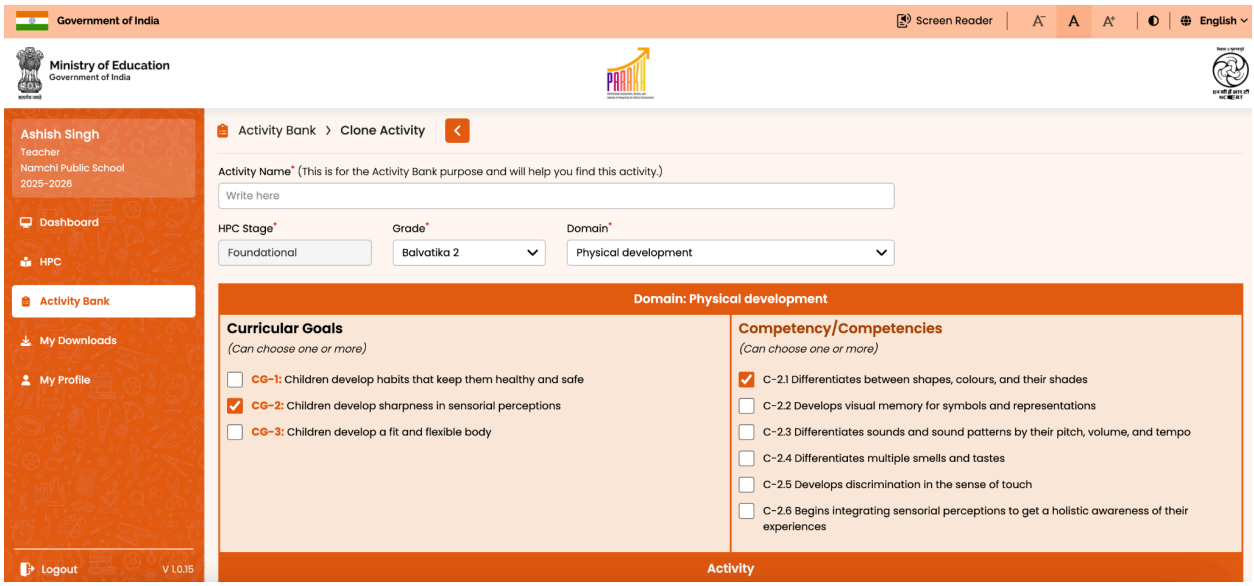

- All fields will be **pre-filled** with the details from the original activity, **except** the **Activity Name** field.
- Enter a new **Activity Name** for the cloned activity.

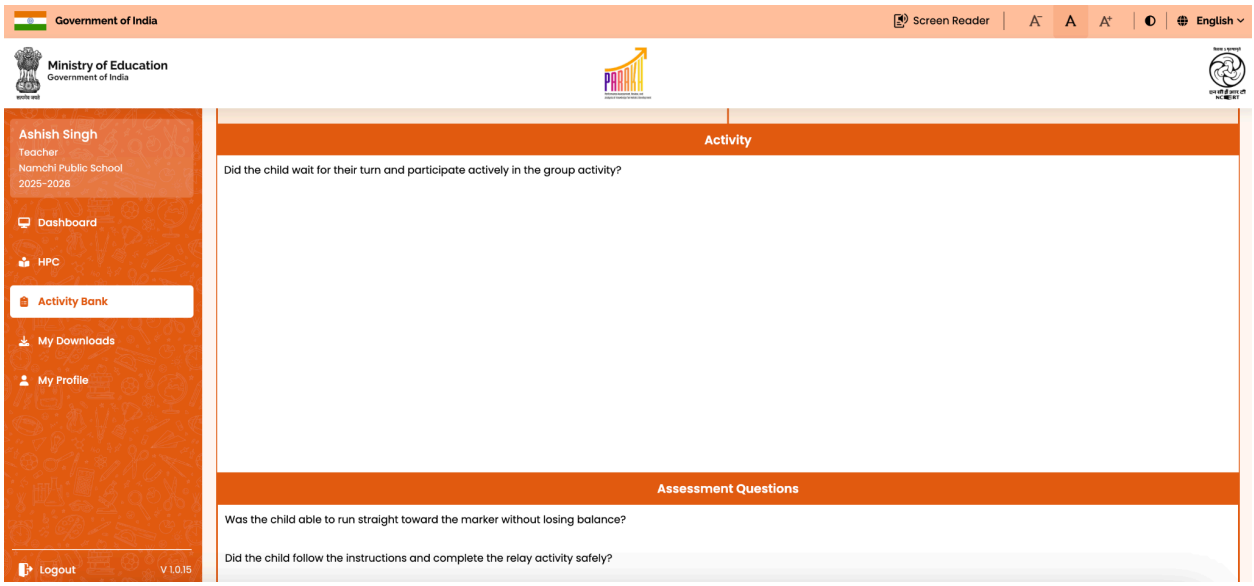

Note on Stage Field

- The **Stage** of the activity **cannot be changed** in the cloned activity.
- You can update other editable fields as required.

Save or Cancel

- Click **“Save”** to save the cloned activity to the Activity Bank.
- Click **“Cancel”** to discard the cloned activity and return to the Activity Bank list.

Delete Activity

Step 1: Go to Activity Bank List

- Navigate to the **Activity Bank list** screen.

Step 2: Locate the Delete Option

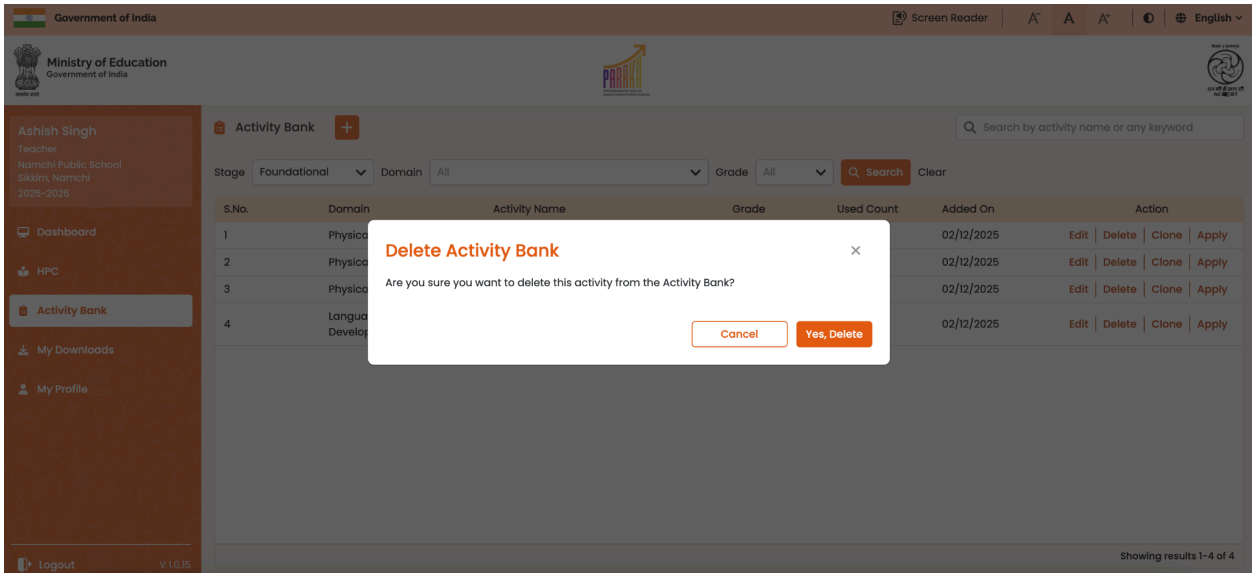

- In the **Action** column of the activity you want to delete, click on the **Delete** button/icon.

Step 3: Confirmation Pop-up

- A confirmation pop-up will appear with two options:
    - **Cancel** – to close the pop-up without deleting the activity.
    - **Yes, Delete** – to confirm and delete the activity.

Step 4: Confirm Deletion

- Click **Yes, Delete** to permanently delete the selected activity from the Activity Bank.

Apply Activity to Students

1. **Choose the Activity**

    - In the Activity Bank list, locate the activity you want to apply.
    - Under the **Action** column for that activity, click **Apply**.

2. **Select Students – Pop-up**
    - A **Select Students** pop-up will open.
    - The **Activity Name** will be shown at the top.
    - The **Grade** field will be pre-filled (and may be non-editable).

- Use the **Section** dropdown (e.g., All / specific sections) to filter students if needed.

3. **Search and Select Students**
   - Use the **Search for students** box to find a specific student by name.
   - To apply the activity to **all students** in the list, tick the **Select All** checkbox.
   - To apply the activity to **specific students**, tick the checkbox next to each student's name.

4. **Apply or Cancel**
   - Check the **Selected** count on the right to confirm how many students you have chosen.
   - Click **Apply** to apply the activity to the selected students.
   - Click **Cancel** if you do not want to proceed.

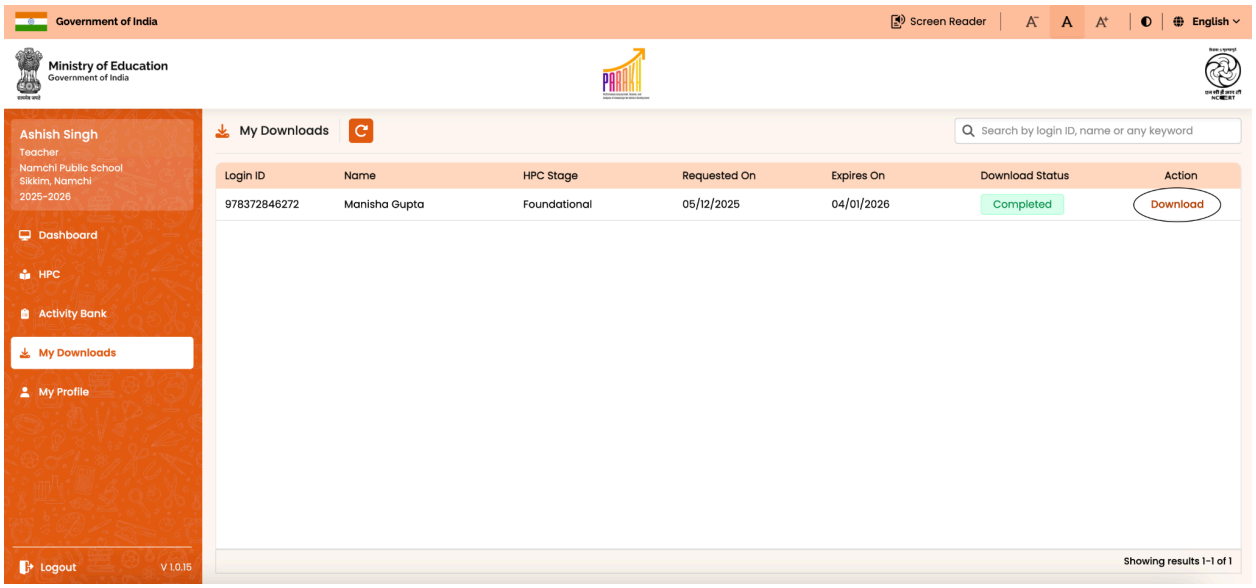

6 . My Downloads

The teacher can navigate to the **“My Downloads”** section from the side menu to view the list of downloaded HPCs.

Details Displayed in the List:

- **Login ID** – Student’s login identifier
- **Student Name**
- **HPC Stage** – Foundational, Preparatory, or Middle
- **Requested On** – Date when the download was requested
- **Expires On** – Expiry date of the generated PDF
- **Download Status** – Indicates whether the PDF is *Completed*, *In Progress*, *Pending*, or *Failed*
- **Action** – Option to **Download** the HPC PDF

Step 1: Search and Filter
The teacher can **search the list** by entering a **Login ID**, **Student Name**, or any **relevant keyword** in the search bar to quickly locate specific HPCs.

Step 2: Download HPC PDF
Clicking the **“Download”** link in the Action column allows the teacher to download the corresponding HPC PDF.

Note: Generated PDFs **expire 1 month** from the generation date.

7. My Profile

Step 1: Access My Profile

The **“My Profile”** section can be accessed from the **side menu**.

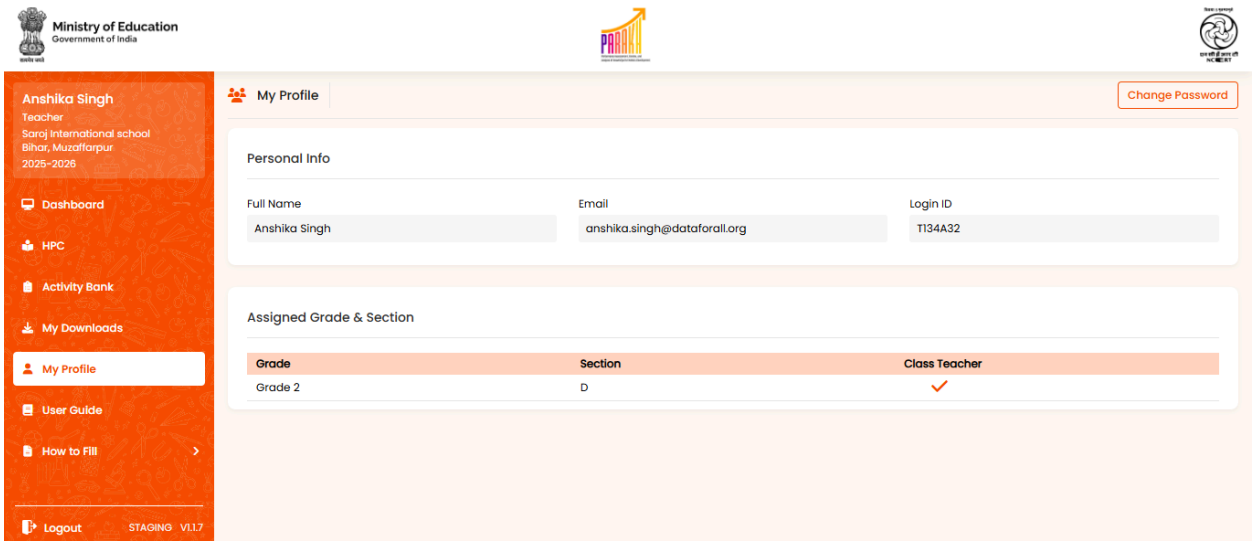

Step 2: View “My profile” details

The teacher can view his details in “My Profile” section. The following information will be displayed:

Personal Info (Non-editable)

- Full Name
- Email
- Login ID

Assigned Grade & Section

Change Password

Step 1: Access Change Password

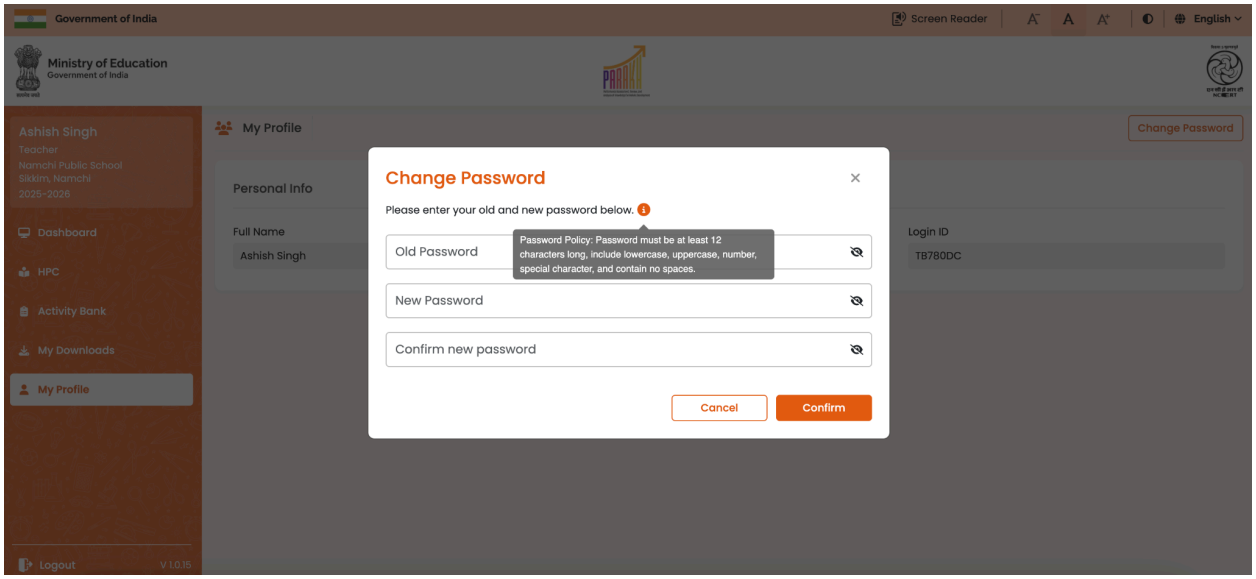

From the My Profile screen, the Teacher can click the “Change Password” option located at the top-right corner of the screen.

Step 2: Update Password

Clicking “Change Password” opens a form where the Teacher can update their password. The Teacher must enter:

- Old Password
- New Password
- Confirm New Password

Note: Hover over the info icon to view the password policy.

The form includes two actionable buttons:

- Cancel – closes the form without saving any changes.

- Confirm – updates the password if the inputs are valid.

8. User Guide

Users can select the “User Guide” module from the left pane of the application and the application will open the user guide for the specific user in a new window.

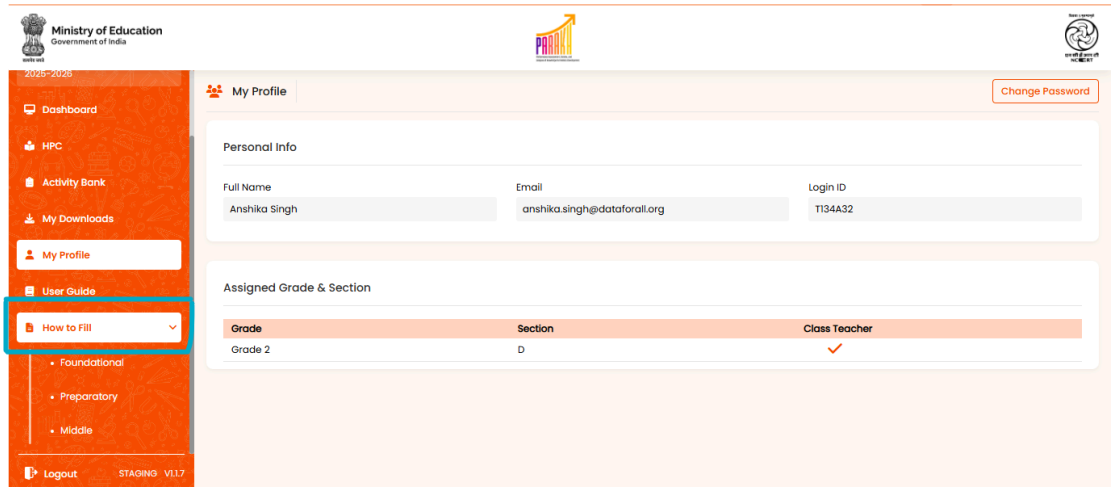

Below is a sample of the user guide for reference. The application usually takes a while to open the complete user guide as it is big file with a lot of pages.

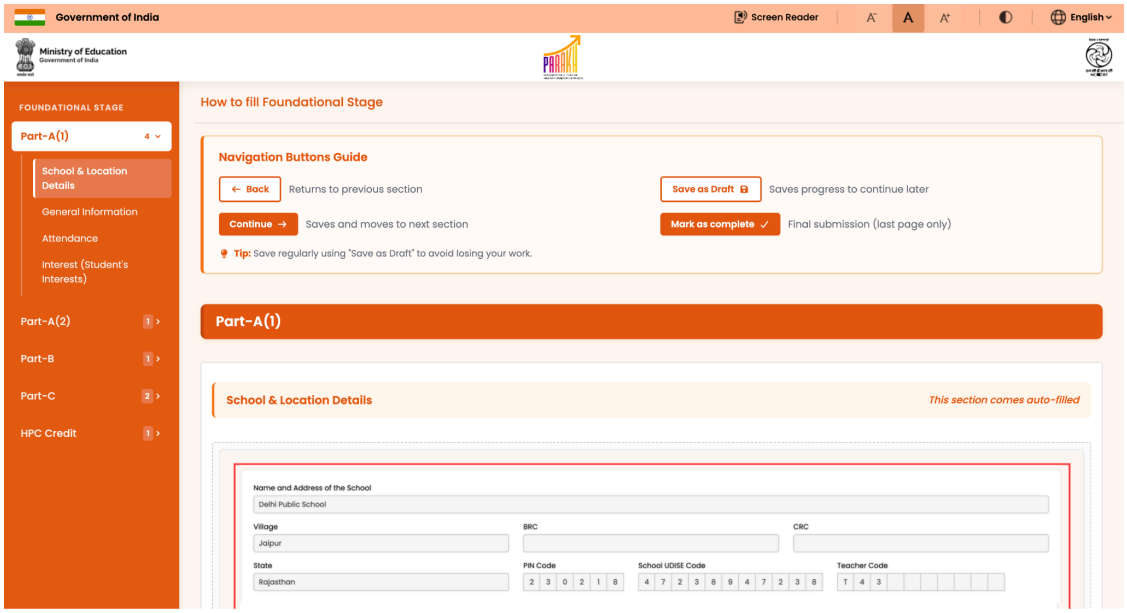

9. How to fill

This section has a detailed guide on how to fill the HPC at the foundational, preparatory and middle stage. Clicking on each of the sub-modules will open the user guide for the teacher as explained below.

1. Foundational - Clicking on this will open an html page which has a step by step guide on how to fill the HPC at the foundational stage.
2. Preparatory - Clicking on this will open an html page which has a step by step guide on how to fill the HPC at the preparatory stage.
3. Clicking on this will open an html page which has a step by step guide on how to fill the HPC at the middle stage.

10. Log out

- Click the **“Logout”** button located at the bottom-left corner of the left navigation panel.

- A **Logout confirmation pop-up** will appear on the screen displaying the message: *“Are you sure you want to logout?”*
- To proceed with logging out, click the **“Confirm”** button.
- If you do not want to log out, click the **“Cancel”** button to close the pop-up and remain logged in.

After confirming logout, the user will be **redirected to the Role Selection screen.**
